Web Video Conferencing

Quick Set Up

Simply combine your new video conferencing system with any HDTV & your ready to go... Plug in your camera and speakerphone. Install your favorite video conferencing software.

Flexible Meetings

Using any of the best Web Video Conferencing solutions your team can use systems they are already familiar with like MS Lync, GoToMeeting or WebEX

Content Sharing

Content Sharing has become easier than ever with Web video conferencing solutions that extent your systems reach to every PC/Mac, Tablet and mobile Smart Phone with access to the internet.

Dual Screen Support

With the Intel NUC or GigaByte Brix "Soft Codec" computers you have support for multiple Digital Video outputs using HDMI and Display Port connections.
